# Fundamental Truths - Mark Douglas

## ANYTHING CAN HAPPEN

1. You don't need to know what is going to happen next in order to make money.
2. There is a random distribution between wins and losses for any give set of variables that define and edge.
3. An *edge* **is nothing more** than an indication of a higher probability of one thing happening over an other.
4. EVERY MARKET MOMENT IS UNIQUE.
5. Define your edge – trust it.
